

ARCHITECTURE MEETS HIGHTECH-INDUSTRY

We are UNIT4 - a nationally active architectural office based in Stuttgart. As specialists for the planning and implementation of complex building construction of micro-electronics, data or high-tech fabs of the advanced or green facility industries, we need STRENGTHENING for these groundbreaking and exciting projects.

That's why we are looking for you to start immediately at our Stuttgart location as an

ARCHITECTS (F/M/D)

As an architect you are responsible for highly complex industrial projects at the cutting edge of technology.

What you can expect

- Project management of execution planning of building construction projects in the high-tech industry sector
- Responsibility for planning with focus on LPH 5
- Controlling and monitoring of the execution and schedule plans on the construction site
- Control of cost control and cost analysis

What distinguishes you

- Passion as an architect
- Completed studies in architecture as well as several years of professional experience (focus on LPH 5), desirable in the industrial sector or in complex construction projects
- Profound CAD knowledge (ArchiCAD / AutoCAD / Revit)
- Design talent as well as curiosity for complex and innovative approaches
- Team spirit and commitment
- Social awareness and responsible action

Look forward to

- A diverse range of tasks with freedom to organize your tasks
- Pleasant working atmosphere and modern office space
- Flexible working hours
- Flat hierarchies and a lot of personal responsibility
- Projects at home and abroad
- Varied employee benefits (free drinks, bike leasing, fitness courses, events)

LET'S BUILD THE FUTURE!

Thank you very much for your meaningful application by email to info@unit-4.com
